SUMMARY

IT graduate from HUFLIT seeking a Fresher Front-End Developer position. Specialized in building responsive and user-friendly web applications using React, TypeScript, and modern Front-End technologies. Experienced in API integration, state management, form validation, authentication flow, and responsive UI development. Able to collaborate effectively with backend developers to deliver scalable and maintainable applications with good user experience.

EDUCATION

Ho Chi Minh City University of Foreign Languages and Information Technology (HUFLIT) 2021 - 2025

Information Technology

Classification: Good

CyberSoft Academy 07/2025 - 01/2026

Front-End Web Development Bootcamp

Classification: Excellent

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript
Front-End:	HTML5, CSS3, React, Next.js, Redux Toolkit, Zustand, Axios, TanStack Query, React Hook Form, Zod, React Router DOM
Styling & UI:	Tailwind CSS, Sass/SCSS, shadcn/ui, Ant Design, Responsive Design
API & Data Architecture:	JWT, RESTful APIs
Back-End & Database (Basic):	Node.js, Express, PostgreSQL, MongoDB
Tools:	Git, GitHub, Postman, Vercel, Figma, Jira, Claude Code
Others:	Manual Testing, Agile/Scrum

WORK EXPERIENCE

LT Information Technology Services Joint Stock Company 11/2024 - 01/2025

Business Analyst Intern

- Gathered user requirements and clarified user flows, business rules, and acceptance criteria with clients.
- Collaborated closely with developers and testers to improve UI behavior, product quality, and overall user experience.
- Performed manual testing, reported bugs, and verified fixes before release.
- Coordinated with the development team to ensure implemented features matched business requirements and UI expectations.
- Worked in an Agile/Scrum environment and participated in team discussions and sprint reviews.

PROJECTS

Airbnb - Clone Web Application (Capstone Project - CyberSoft)	01/2026 - 02/2026
Team size: 2 Role: Front-End Developer GitHub Demo	
Description: Built a responsive Airbnb-style booking platform that allows users to search rooms, view room details, and manage reservations through RESTful APIs.	
- Built a responsive UI using React (TypeScript) and Tailwind CSS. - Integrated RESTful APIs to fetch and sync data from a Swagger backend. - Implemented client-side routing, authentication flow, and protected routes. - Managed server state, loading states, caching, and error handling using TanStack Query. - Built validated forms using React Hook Form and Zod to improve user input experience. - Optimized user experience with search filtering, responsive layouts, and UI consistency. Tech Stack: React, TypeScript, Tailwind CSS, shadcn/ui, Redux Toolkit, TanStack Query, Axios, RHF, Zod, React Router DOM.	

Todo X - Full-Stack Task Management App	02/2026
---	---------

Team size: 1 | Role: Full-Stack Developer | GitHub | Demo

Description: A full-featured task management application that allows users to manage daily tasks securely.	
- Developed a full-stack app using the MERN stack (MongoDB, Express, React, Node.js). - Designed database schemas with MongoDB and handled state synchronization between frontend and backend. - Developed CRUD features for task creation, updating, and deletion. - Managed form validation, loading states, and API error handling. - Improved user experience through clean UI structure and responsive layouts. Tech Stack: React, JavaScript, Node.js, Express, MongoDB, Tailwind CSS.	

CERTIFICATES

TOEIC L&R: 525	02/2025
Professional Front-End Developer (CyberSoft Academy): Excellent	05/2026

SOFT SKILLS

- Agile/Scrum teamwork.
- Communication & collaboration.
- Adaptability and continuous learning.
