ABOUT ME

Recent Information Technology graduate from HUFLIT seeking a Front-End Developer position. Passionate about building user-friendly and high-quality web applications, with experience in developing responsive interfaces and applying modern frontend technologies. Continuously improving technical skills through personal projects and self-learning, while aiming to contribute effectively to real-world projects and collaborate in a professional, team-oriented environment.

EDUCATION

Ho Chi Minh City University of Foreign Languages and Information Technology (HUFLIT) 2021 - 2025

Information Technology

Graduation classification: Good

Cybersoft Academy 07/2025 - 01/2026

Front-End Web Development Bootcamp

Graduation classification: Expected

Completed a Front-End Development Bootcamp, gaining hands-on experience with HTML, CSS, Tailwind CSS, SASS, JavaScript, TypeScript, React, and Next.js. Worked with modern libraries and built responsive web applications using Git/GitHub through practical projects.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries:	React, Next.js, Redux Toolkit, RTK Query, Zustand, Axios, TanStack Query, React Hook Form, Zod, React Router DOM
Styling & UI:	Tailwind CSS, Sass/SCSS, shadcn/ui, Ant Design, Responsive design
Tools:	Git, Git/Hub, Vercel, Figma, Jira
API & Data Architecture:	RESTful APIs, GraphQL
Backend & Databases (Basic):	Node.js, Express, PostgreSQL, MongoDB

WORK EXPERIENCE

LT Information Technology Services Joint Stock Company 11/2024 - 01/2025

Business Analyst Intern

- Analyzed software development processes and project workflows
- Collaborated with cross-functional teams (Developers, Testers, Designers) on real-world projects
- Gathered and clarified business requirements through client communication
- Assisted in documenting requirements, user flows, and functional specifications
- Worked in Agile/Scrum environment (daily stand-ups, sprint planning)
- Monitored project progress and ensured requirements were delivered on time and aligned with project goals

PROJECT

Airbnb Clone Web Application (Capstone Project – CyberSoft) 16/01/2026 - 28/02/2026

Team size: 2 | Role: Front-End Developer | GitHub: github.com/huynhthaist08/project_capstone_airbnb

Description: A full-featured Airbnb-style web application that allows users to search rooms, make bookings, and manage reservations, with an integrated admin dashboard for system management.

- Developed an Airbnb-style SPA, applying knowledge from the Front-End Bootcamp
- Built responsive UI using React (TypeScript), Tailwind CSS, shadcn/ui, and Ant Design
- Integrated with RESTful APIs (Swagger) using Axios and managed server state with TanStack Query
- Implemented authentication, authorization (role-based access), and protected routes
- Developed forms (login/register/booking) with React Hook Form and Zod validation
- Implemented pagination, filtering, and CRUD features in Admin Dashboard
- Used React Router DOM for routing and applied reusable component architecture

Tech Stack: React (TypeScript), Tailwind CSS, shadcn/ui, Ant Design, Redux Toolkit, TanStack Query, Axios, React Hook Form, Zod, React Router DOM.

Personal Frontend Project 2022 - Present

Team size: 1 | Role: Front-End Developer | GitHub: github.com/huynhthaist08

Developed multiple personal frontend projects, including responsive landing pages and mini applications published on GitHub, applying self-learned technologies. Focused on UI implementation, reusable components, and enhancing user experience through hands-on practice.

CERTIFICATE

TOEIC (Listening & Reading): 525 Score	02/2025
Front-End Web Development - CyberSoft Academy	2026
HTML5, CSS3 & JavaScript Pro Courses - F8.edu.vn	2023

SOFT SKILL

- Analytical thinking and problem-solving in programming
- Strong time management and task prioritization
- Clear communication and effective teamwork
- Adaptability and continuous learning mindset
- Experience with Agile/Scrum
- Attention to UI/UX detail
- Debugging and troubleshooting skills
- Ability to understand and deeply research library/framework documentation
