https://thaihuynh.vercel.app/

SUMMARY

IT Graduate from HUFLIT, seeking a Fresher Front-End Developer role. I specialize in building responsive, high-quality web applications using modern technologies, with foundational knowledge in Back-End development and databases to ensure seamless data integration. Passionate about learning and delivering effective, well-rounded solutions in a professional team.

EDUCATION

Ho Chi Minh City University of Foreign Languages and Information Technology (HUFLIT) 2021 - 2025

Information Technology

Classification: Good

CyberSoft Academy 07/2025 - 01/2026

Front-End Web Development Bootcamp

Classification: Excellent

CERTIFICATES

TOEIC L&R: 525	02/2025
Professional Front-End Developer (CyberSoft Academy): Excellent	05/2026

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries:	React, Next.js, Redux Toolkit, Zustand, Axios, TanStack Query, React Hook Form, Zod, React Router DOM
Styling & UI:	Tailwind CSS, Sass/SCSS, shadcn/ui, Ant Design, Responsive Design
API & Data Architecture:	JWT, RESTful APIs, GraphQL
Back-End & Database (Basic):	Node.js, Express, PostgreSQL, MongoDB, Mongoose
Tools:	Git, GitHub, Postman, Swagger, Vercel, Figma, Jira, Claude Code
Others:	Manual Testing, Agile/Scrum

WORK EXPERIENCE

LT Information Technology Services Joint Stock Company 11/2024 - 01/2025

Business Analyst Intern

- Gathered client requirements and wrote user manuals for the software
- Performed manual testing to find bugs and ensure product quality
- Collaborated with the Dev team to follow the product development process
- Met directly with clients to discuss needs and present project reports

- Worked in an Agile/Scrum environment and participated in team reviews

PROJECTS

Airbnb - Clone Web Application (Capstone Project – CyberSoft) 01/2026 - 02/2026

Team size: 2 | Role: Front-End Developer | GitHub: github.com/huynhthaist08/project_capstone_airbnb

Description: A full-featured Airbnb-style web application that allows users to search rooms, make bookings, and manage reservations, with an integrated admin dashboard for system management.

- Built a responsive UI using React (TypeScript) and Tailwind CSS
- Integrated RESTful APIs to fetch and sync data from a Swagger backend
- Managed complex data flows and real-time booking logic
- Optimized user experience with smart search and location filters
- **Tech Stack:** React (TypeScript), Tailwind CSS, shadcn/ui, Redux Toolkit, TanStack Query, Axios, React Hook Form, Zod, React Router DOM

Todo X - Full-Stack Task Management App 02/2026 - 02/2026

Team size: 1 | Role: Full-Stack Developer | GitHub: github.com/huynhthaist08/todox-mern-stack-app

Description: A full-featured task management application that allows users to manage daily tasks securely.

- Developed a full-stack app using the MERN stack (MongoDB, Express, React, Node.js)
- Implemented user authentication and authorization to protect user data
- Built full CRUD functionality for task management
- Designed database schemas with MongoDB and handled state synchronization between frontend and backend
- **Tech Stack:** React (JavaScript), Node.js, Express, MongoDB, Tailwind CSS

SOFT SKILLS

- Problem-solving: Analytical thinking and solving problems in programming
- Teamwork: Clear communication and effective collaboration
- Fast learner: Strong adaptability and ready to learn new skills to meet job requirements.
- Agile/Scrum: Experience working in Agile and Scrum environments
- UI/UX detail: Strong focus on UI/UX details and user experience
- Research skills: Ability to read and research library/framework documentation
- Debugging: Strong skills in finding and fixing technical bugs
